

Formation pour les professionnels  
de l'enfance, de l'adolescence et de la famille

# Traumatismes autour de la naissance

La formation continue du Centre d'Ouverture Psychologique Et Sociale (Copes) s'adresse à tous les acteurs du champ médical, psychologique, pédagogique et social (médecins, gynécologues, obstétriciens, psychologues, psychiatres, pédiatres, infirmiers, éducateurs, travailleurs sociaux, moniteurs d'éducation familiale, psychomotriciens, orthophonistes, sages-femmes, puéricultrices, enseignants...), garants de la prévention précoce et de la santé globale de l'enfant, de l'adolescent et de la famille.

Les stages et les formations sur site proposés par le Copes explorent les domaines de l'enfance à l'adolescence, les problématiques familiales, sociales et culturelles et les questions institutionnelles.

**Le Copes est habilité à recevoir au sein de toutes ses formations les professionnels de santé (médecins, sage-femmes et paramédicaux) qui sont concernés par le DPC.**

Chaque grossesse et chaque naissance est unique et représente une expérience corporelle et psychique inédite. Le bouleversement de cette expérience est à resituer dans l'histoire subjective, familiale, trans et inter-générationnelle, sociale et culturelle. Le devenir mère est une période dite de crise, où l'identité de femme doit s'articuler à celle de mère en devenir. L'accouchement s'inscrit dans cette période singulière et peut être pensé comme une crise dans la crise. L'approche historique, culturelle et sociétale, notamment à travers l'actuel débat sur les violences obstétricales, fait apparaître l'expérience de l'accouchement comme porteuse d'une potentialité désorganisatrice.

En effet, la clinique montre avec force la potentialité traumatique de l'accouchement, même dans un contexte de relative normalité obstétricale. Partir du processus du désir d'enfant et de maternité jusqu'à sa réalisation et explorer le chamboulement somatopsychique propre à l'état de grossesse permettront de saisir les enjeux lorsque des complications obstétricales ou des événements dramatiques tels que la mort du fœtus ou du bébé viennent s'y greffer.

**Animé par Marie Courtaux, psychologue clinicienne. Participation d'intervenants spécialisés.**

## Thèmes

Processus psychiques liés au « devenir mère ». — Concepts de vulnérabilité psychique, de narcissisme et d'objectivisation. — Développements autour de la notion de « traumatisme » en périnatalité. — Expérience somatopsychique de la naissance et ses aléas. — Incidents obstétricaux (hémorragie de la délivrance, prééclampsie, ...). — Deuil périnatal.

## Objectifs

Acquérir des connaissances actuelles cliniques sur les traumatismes en périnatalité. — Enrichir les pratiques entre les différents acteurs du périnatal.

## Public et prérequis

Tout professionnel intervenant dans le champ de la prévention précoce : sages-femmes, infirmières, puéricultrices, auxiliaires de puériculture, psychologues, assistants de service social, gynécologues, obstétriciens, psychiatres, pédiatres...

## Méthodes de travail

2 + 1 jours. — Exposés théoriques illustrés de matériel clinique (supports audio). — Échanges avec les intervenants.

### Stage

SM23-25

### Tarif

795 €

### Lieu

Paris

### Dates

28-29 nov., 8 déc. 2023 (soit 21 h sur 3 jours)

## MARDI 28 NOVEMBRE 2023

---

Accueil des stagiaires et échange autour de leurs attentes.

Introduction avec une présentation de la formation.

Première thématique : « Expérience somato-psychique de l'accouchement et ses potentialités traumatiques ».

Accouchement et traumatisme : mise à l'épreuve du corps et de la psyché. Apports théoriques sur la notion de traumatisme et discussion autour de ce concept ..... 9 h à 13 h

## MERCREDI 29 NOVEMBRE 2023

---

Deuxième thématique : « Quand donner la vie rime avec risquer la mort : Singularités de l'expérience de femmes après une Hémorragie du Post-Partum (HPP) ».

Approche historique, anthropologique et médicale de l'HPP.

Face à un risque de mort objectivé : apports théoriques autour des expériences extrêmes du corps et du frôlement de la mort (représentation de la mort dans la vie psychique ; angoisse de mort ; impact traumatique de la confrontation au risque de mort).

Hiatus entre risquer de mourir et devenir mère ..... 9 h à 13 h

**Courtaux Marie**

Présentation d'une étude psychologique prospective unicentrique cas-témoin.

Illustrations cliniques à partir de supports audios ..... 14 h à 17 h

**Courtaux Marie**

**Gosme Christelle, psychologue clinicienne, psychothérapeute, docteur en psychologie, Pôle Hospitalo Universitaire de Psychiatrie de l'Enfant et de l'Adolescent (PHUPEA), Hôpital Guillaume Régnier, Rennes.**

## VENDREDI 8 DÉCEMBRE 2023

---

Troisième thématique : « Quand le risque de mort se trouve du côté du bébé : Singularités des naissances prématurées lors d'une préoccupation vitale pour le bébé » ..... 9 h à 13 h

**Courtaux Marie**

**Ricignuolo Céline, psychologue clinicienne, centre hospitalier de Meaux dans le service de réanimation et médecines néonatales, hôpital Necker-Enfants malades, Paris.**

Travail d'élaboration avec le groupe à partir de situations cliniques rencontrées par les stagiaires.

Clôture de la formation : conclusion et bilan du stage ..... 14 h à 17 h

**Courtaux Marie**

the *Journal of Applied Behavior Analysis* (1974), and the *Journal of Experimental Psychology: Applied* (1995).

There are a number of reasons why the *Journal of Applied Behavior Analysis* is the most widely cited journal in the field. First, it is the only journal in the field that is peer reviewed.

Second, it is the only journal in the field that is published by a professional organization (the Association for Behavior Analysis).

Third, it is the only journal in the field that is published by a publisher (Sage Publications) that is known for its high quality of publication.

Fourth, it is the only journal in the field that is published by a publisher that is known for its high quality of service to authors and readers.

Fifth, it is the only journal in the field that is published by a publisher that is known for its high quality of editing and production.

Sixth, it is the only journal in the field that is published by a publisher that is known for its high quality of distribution.

Seventh, it is the only journal in the field that is published by a publisher that is known for its high quality of advertising.

Eighth, it is the only journal in the field that is published by a publisher that is known for its high quality of circulation.

Ninth, it is the only journal in the field that is published by a publisher that is known for its high quality of subscription.

Tenth, it is the only journal in the field that is published by a publisher that is known for its high quality of pricing.

Eleventh, it is the only journal in the field that is published by a publisher that is known for its high quality of marketing.

Twelfth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer service.

Thirteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer support.

Fourteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer care.

Fifteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer satisfaction.

Sixteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer loyalty.

Seventeenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer retention.

Eighteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer engagement.

Nineteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer interaction.

Twentieth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer communication.

Twenty-first, it is the only journal in the field that is published by a publisher that is known for its high quality of customer relationship.

Twenty-second, it is the only journal in the field that is published by a publisher that is known for its high quality of customer trust.

Twenty-third, it is the only journal in the field that is published by a publisher that is known for its high quality of customer respect.

Twenty-fourth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer appreciation.

Twenty-fifth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer gratitude.
